

# Camille Hansen-Theobald

Full Stack web developer leveraging education and performing arts background to build engaging user experiences. Recently earned a certificate in full stack development from Columbia University, with newly developed skills in JavaScript, Node.js, React and responsive web design. Known as an inventive problem solver excited to develop intuitive apps, with a focus on mobile-first design and development. With each project, I hope to attract my audience with a pleasant user experience. I'm excited to use my skills as a valuable team-member, at a company I believe in, to build better experiences on the web.

## PROJECTS

### INDUBITABLY — *Seek and Hire for jobs by skill*

<https://tranquil-ocean-87497.herokuapp.com/>

~Me and five developers built Indubitably out of the need for a straight forward job seeking app that cuts through the cover letter and straight to the skills needed. My responsibility was focused on the Front End logic and UI aspects. Use Node.js and Express.js to create a RESTful API, Handlebars.js as the templating engine. *Front End* MySQL and the Sequelize ORM for the database. *Backend*

### MakiMaku — *Dinner and a movie dating app*

<https://camillenicole.github.io/MakiMaku/>

~Me and four developers built MakiMaku to make a date at home more spontaneous but randomly selecting a film and dinner recipe for the user.

## EXPERIENCE

### American Musical and Dramatic Academy, New York City — *Assistant to Student Affairs and Housing*

MONTH 2009 - PRESENT
