SUMMARY

Full Stack web developer leveraging education and performing arts background to build engaging user experiences. Recently earned a certificate in full stack development from Columbia University, with newly developed skills in JavaScript, Node.js, React and responsive web design. Known as an inventive problem solver excited to develop intuitive apps, with a focus on mobile-first design and development. With each project, striving to attract the audience with a pleasant user experience. Excited to use these skills as a valuable team-member, at a company with similar values, to build better experiences on the web.
